

Our Chamber business spotlight this month is... Cada Electric

This month's Chamber Business Spotlight is on Cada Electric and owners Andy and Molly Cada, enjoy reading their story!

This is a story of a hometown boy that came back to build his life and raise his family in the community he grew up in and loved. Andy is a 2005 graduate of Schuyler Central High School; he then went to college at Southeast Community College in Milford and majored in Electrical Technology. Andy married Molly (McGowan) who was raised in Schuyler as well in 2008, at that time they moved to Omaha, but a few short years later in 2012 they moved back. Andy worked for an electrician out of Columbus full time all the while trying to begin and build his own business. It did not take long for him to realize that he was too busy to do both and what he needed to do was focus on getting his business off the ground and putting all his energy into it. So, at that time, he made the jump... what a leap in faith for this young entrepreneur!

Cada Electric, LLC serves the area with a wide spectrum of electrical services such as Overhead/Boom Work, Underground/Trenching, Residential, Commercial, Agricultural, Service Work, and Remodels. All your electrical needs right under one business!! Cada Electric is known for doing quality work at a fair rate, their motto is to keep the community safe by not cutting corners.

When asked what the best thing about having a business in Schuyler is, Andy responded with “Schuyler is a community with a strong and diverse local economy. There is always something different to work on!” Future plans for this business are to continue to serve the electrical needs of our community, not to mention our surrounding smaller communities and rural area around Schuyler.

Andy and Molly are the proud parents of five children, ages ranging from 4 to 11, which makes them remarkably busy people! Andy and Molly are both members of the Schuyler Golf Club in which Andy also serves on the Schuyler Golf Club Board. Lastly, they are members of Holy Trinity Heun Catholic Church in Colfax County. We appreciate having them as Chamber Members and being a successful and positive business here in Schuyler for nearly 9 years. If you would like to contact Cada Electric for your personal electrical needs, you can call them at 402-660-5597.
